Spring Conference

Friday, May 3rd, 2019 8:30 am – 4:30 pm

ATTACHMENT, TECHNOLOGY AND PORNOGRAPHY USE: How Women are Impacted from Adolescence to Adulthood

Presenter:

Tammy Malloy, Ph.D, LCSW, CSAT, CCTP

Dr. Tammy Malloy holds a Ph.D in Social Work and a License in Clinical Social Work. Dr. Malloy is also a Certified Sex Addiction Therapist, a Certified Clinical Trauma Professional, and EMDR Trained (Level 1 and 2). Dr. Malloy has been facilitating research for over 10 years with topics including Addiction, Spirituality, Attachment and Clinical personality patterns and syndromes. Dr. Malloy's recent research is in Attachment, Ecological Systems and high risk sexual behaviors with internet pornography use. Dr. Malloy has been the Chief Clinical Officer at Behavior Health of the Palm Beaches for over 5 years which is now a part of Banyan Treatment Center. Dr. Malloy has spoken across the US and worldwide on her research and has published over 10 articles in academic peer reviewed journals.

Course Description: Since the inception of the internet and technology, internet pornography engagement has increased with both men and women. With this increase comes high risk behaviors that impact all levels of one's ecological system. Attachment Theory and Ecological systems: Techno Sub-system will be utilized to explain how adolescent girls are culturally groomed, what risk factors are associated with these high risk behaviors, and what protective factors play a major role in hindering high risk behaviors in adolescence and young adult women. The current research study will be examined that explains how parental bonding, engagement in internet pornography in youth and high risk behaviors in young adulthood are exhibiting in our young women today. Clinical Implications, Assessment, Continuing Care/Treatment and Policy and Education will also be discussed.

OBJECTIVES

Upon completion of this training participants will be able to:

1. Recognize a pornified culture and how this culture has impacted young women and adolescents.
2. Assessments will be reviewed to assist in treating internet and sex addiction among young women as well as assessments for adolescents.
3. Review the Parental Bonding Instrument and how this instrument can be used as a tool in treating high risk behaviors.
4. A new model will be given summarizing and outlining the techno-subsystem and how a child's situation is affected while attachments are forming.
5. Support in case reviews, treatment planning, and acquire appropriate educational tools to assist client population that engage in high risk behaviors.
